**From:** Dave Dickerson/R1/USEPA/US

**To:** "Schroeder, Paul R ERDC-EL-MS" <Paul.R.Schroeder@usace.army.mil>

**Copy To:** "Ruiz, Carlos E ERDC-EL-MS" <Carlos.E.Ruiz@usace.army.mil>; "Fredette, Thomas ERD" <Thomas.J.Fredette@usace.army.mil>

**Delivered Date:** 05/24/2010 09:16 AM EDT

**Subject:** RE: final comments on the NBH CAD cell model report

Paul - the call is scheduled for 1pm EDT today. The number is:

**617 918 2826**  
**code: 631659**

Note I'm fighting a bit of a fire drill today; hopefully it won't require rescheduling. If it does I'll let you all know.

Thanks - Dave

---

Dave,

Are we scheduled for a call at 1 pm EDT (eastern) or 1 pm CDT (central) on Monday?

Paul

Dave,

Here is the final package.

I suggest that we have a conference call on Monday at 1:30 pm EDT.

Carlos,

Tom and I should be available at that time. Let us know if that works for you and any others that you like to include on the call.

Thanks,

Paul

Subject: RE: final comments on the NBH CAD cell model report

thanks Paul - looks like that just about does it. I've attached the Word file with all the most recent changes accepted and comments deleted. I assume the last step is for the final product to be "packaged" - i.e., figures and tables attached, Could you send us a pdf of the final product once this is done? Actually, our monthly public meeting is next Thursday 5/27, it'd be great if we could have it

up and posted on our website by then if at all possible.

Also, on the larger question of whether to start modeling the upper harbor CAD cell, maybe we should have a quick conference call to see about availability, timeframes, etc.

Thanks again - Dave

Dave,

I addressed your comments incorporating your changes except where noted  
in  
the comments which contain some clarifications.

Paul

Paul - I think we're almost done! My (hopefully) final comments are attached. Thanks again to everyone who contributed.

Dave

Dave,

I addressed all of your comments, except the mentioning of activated carbon which I understand that you did not want a control section added. Do you want a statement added to the conclusion #9 that the losses between dredging seasons could be reduced by broadcasting activated carbon? I also added a conclusion regarding acceleration of the placement schedule.

Please check out the changes and then I will finalize the document.

Paul

Subject: final comments on the NBH CAD cell model report

Hello - thanks to all involved with this effort. Looks to me like we have a very good product. My relatively few and minor comments are attached in blue text.

My one over-arching comment (repeated in the attachment) is this: the modeling assumes placement over three years, yet our cost estimates are now assuming only one or two years (depending on funding) to fill the cell. Can the report add a short discussion about but what the likely impact would be (i.e., higher or lower losses) if the cell is filled over a shorter time frame - i.e., one or two years?

Thanks again - Dave

p.s. - I'll look over the tables and figures early next week and get any comments on those to you as well)
